Order No. R8-2019-0061, NPDES No. CAG918002 General WDRs for Groundwater Discharges to Surface Waters within the Newport Bay Watershed

# California Regional Water Quality Control Board Santa Ana Region

# **NOTICE OF INTENT**

TO COMPLY WITH THE TERMS AND CONDITIONS OF THE GENERAL WASTE DISCHARGE REQUIREMENTS (WDRS) FOR DISCHARGES TO SURFACE WATERS RESULTING FROM DE MINIMIS DISCHARGES, GROUNDWATER DEWATERING OPERATIONS, AND/OR GROUNDWATER CLEANUP ACTIVITIES AT SITES WITHIN THE NEWPORT BAY WATERSHED (Order No. R8-2019-0061, NPDES No. CAG918002)

a. Individual permit Order No NPDES No						
b. General Permit C	order No. R8-2007-0041					
c. Others (specify) _						

Remarks: If changes to facility ownership and/or treatment processes were made after the issuance of the discharge authorization letter, please provide a description of such changes on another sheet and submit it with this Notice of Intent.

Order No. R8-2019-0061, NPDES No. CAG918002 General WDRs for Groundwater Discharges to Surface Waters within the Newport Bay Watershed

# V. OTHER REQUIRED INFORMATION - FOR NEW DISCHARGERS AND FOR NEW DISCHARGES AND LOCATIONS NOT PREVIOUSLY REPORTED.

Attach to this form a COMPLETE characterization of your discharge. A complete characterization includes, but is not limited to:

- a. A paragraph or more describing the actual project(s), and the types of wastewater that are proposed to be discharged from the project(s); discharges subject to this Order are listed in section I.A of the Order. Please elaborate on the purpose of the activity, and how it creates the discharge. If more than one activity is planned, give a complete description of each discharge. Also, indicate the planned frequency of the discharges, (i.e. one time only, one week only, daily, weekly, monthly, as needed, etc.);
- b. A site characterization study the defines at minimum the following:
  - i. Onsite contaminant levels of petroleum hydrocarbons, solvents, metals, and/or salts;
  - ii. Contaminant properties;
  - iii. Three-dimensional subsurface extent of contaminants;
  - iv. And the geologic and hydrologic factors that control the migration of contaminants.
- c. The estimated average and maximum daily flow rate (gallons per day) of each discharge, as well as the frequency and duration of the discharge(s) and the date(s) when the discharge(s) are anticipated to start/end;
- d. The proposed discharge location(s) as latitude and longitude for each discharge point;
- e. A description of the proposed treatment system (if appropriate);
- f. The name/location of the initial receiving water (storm drain/creek), and the ultimate receiving water, such as the Pacific Ocean, Reach 3 of the Santa Ana River, etc.;
- g. A map showing the path from the point of initial discharge to the ultimate receiving water. Please try to limit your maps to size of 8.5" X 11";
- h. A list of known or suspected leaking underground tanks and other facilities or operations that have, or may have impacted the quality of the underlying groundwater within 200 feet of the site property lines for projects with expected discharge flow rates of less than 100,000 gallons per day and within 500 feet of the site property lines for projects with expected discharge flow rates of greater than 100,000 gallons per day;
- i. Specific requirements detailed in section II.B of the Order; and
- j. Any other information deemed necessary by the Executive Officer.

#### VI. OTHER

Attach additional sheets to explain any responses which need clarification. List attachments with titles and dates below:

Order No. R8-2019-0061, NPDES No. CAG918002 General WDRs for Groundwater Discharges to Surface Waters within the Newport Bay Watershed

## VII. FEE

The fee for coverage under this general order during FY 2018/19 is \$2268.00. Please contact the RWQCB for the current fee. Checks should be made payable to the State Water Resources Control Board or SWRCB. A fee must accompany this application for all new discharges.

### VIII. CERTIFICATION:

I certify under penalty of law that I am an authorized representative of the permittee identified in Part I., above, and that I have personally examined and am familiar with the information submitted in this application and all attachments and that, based on my inquiry of those persons immediately responsible for obtaining the information contained in the application, I believe the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment. In addition, I certify that the permittee will comply with the terms and conditions stipulated in Order No. R8-2019-00061, including the monitoring and reporting program issued by the Executive Officer of the Santa Ana Water Board.
